

WARRANTY CERTIFICATE

This warranty is subject to all of the terms and conditions listed below. Online warranty registration on the 'Fresh Manufacturing' website must be properly executed. Failure to complete online registration within 15 days of installation will automatically void all warranties. The term "Original Purchaser" as used herein shall be deemed to refer to that person, firm, association, or company for whom the refrigeration unit refers to herein is originally installed.

Standard Warranty

Three (3) Years Parts and Labor Warranty: (All refrigeration equipment except for 'FOD' models)

Fresh Manufacturing Inc. warrants to the original purchaser of the FRESH MFG unit sold and all parts thereof to be free from defects in material or workmanship, under normal use and service for a period of three (3) years from the date of sale by a retailer or thirty-six (36) months from date of shipment by Fresh Manufacturing, whichever occurs first. Our obligation under this warranty shall be limited to the repair or replacement charges of defective parts or assemblies. The labor shall include standard straight-time labor charges only and reasonable travel time, determined by Fresh Manufacturing's warranty procedure and guidelines.

Two (2) Years Parts & Labor Warranty: ('FOD' models – open display merchandisers)

Fresh Manufacturing Inc. warrants to the original purchaser of the FRESH MFG unit sold and all parts thereof to be free from defects in material or workmanship, under normal use and service for a period of two (2) years from the date of sale by a retailer or thirty-six (36) months from date of shipment by Fresh Manufacturing, whichever occurs first. Our obligation under this warranty shall be limited to the repair or replacement charges of defective parts or assemblies. The labor shall include standard straight-time labor charges only and reasonable travel time, determined by Fresh Manufacturing's warranty procedure and guidelines.

Six (6) Months Limited Parts, Labor, and Compressor Warranty: (For any units installed in a mobile vehicle)

Fresh Manufacturing Inc. provides six (6) months limited parts and labor warranty from the time of purchase for any refrigeration equipment that is installed in any kind of mobile vehicle, not limited to, trucks, trailers, food trucks, or boats. Fresh Manufacturing assumes no liability for parts or labor coverage for component failure or other damages resulting from installation in non-commercial or residential building applications. Any equipment that has been altered, modified, or utilized in any manner other than how the equipment has originally been designed, or to be used will have the warranty nullified and voided automatically.

Five (5) Years Compressor Warranty

Fresh Manufacturing Inc. warrants its hermetically sealed compressor to be free from defects in both material and workmanship under normal, proper use and maintenance service for a period of five (5) years from the date of original installation, but not to exceed seven (7) years after shipment from a Fresh Manufacturing warehouse. A compressor determined by Fresh Manufacturing to have been defective within this warranty period will, at Fresh Manufacturing's discretion, be either repaired or replaced with a compressor or compressor parts of similar design and capacity. The five (5) years compressor warranty applies only to hermetically sealed parts of the compressor and does not apply to any other parts or components, including, but not limited to, cabinet, paint finish, temperature control, refrigerant, metering device, driers, motor starting equipment, fan assembly or and other electrical components. However, Fresh Manufacturing refrigeration units installed in any mobile vehicle will only have a limited six (6) months compressor warranty from the time of purchase.

COMPRESSOR WARRANTY

The five-year compressor warranty described above will be voided if the following procedure is not carefully adhered to.

1. Fresh Manufacturing's system contains R290, R404A refrigerants and polyol ester lubricant. The polyol ester lubricant has rapid moisture-absorbing qualities. If long exposure to ambient conditions occurs, the lubricant must be removed and replaced with a new one. Failure to comply with recommended lubricant specifications will void the compressor warranty.
2. Drier replacement is very important and must be changed when a system is opened for servicing. A drier using XH-9 desiccant or an exact replacement solid core drier must be used. The new drier must also be the same capacity as the drier being replaced.
3. Micron-level vacuums must be achieved to insure low moisture levels in the system. 500 microns or lower must be obtained.
4. All Compressor replacements must be obtained through Fresh Manufacturing's warranty department unless Fresh Manufacturing waives this requirement in writing and at its sole discretion. Failure to comply with this requirement will void the compressor warranty.

WHAT IS NOT COVERED BY THE WARRANTY

Fresh Manufacturing's sole obligation under this warranty is limited to repairing or replacing parts, subject to the additional limitations below. This warranty neither assumes nor authorizes any person to assume obligations other than those expressly covered by this warranty.

Non-Warranty Parts

Fresh Manufacturing excludes specific parts exposed to normal wear and tear. These parts include but are not limited to, lamps, gaskets, casters, shelves and shelf clips, pans, bin and pan dividers, and air-flow guards.

No Consequential Damages

Fresh Manufacturing is not responsible for economic or profit loss including, but not limited to, losses or damages arising from food or product spoilage claims whether or not on account of refrigeration failure.

Warranty is NOT transferable

This warranty is not assignable and applies only in favor of the original purchaser, owner, or lessee of the unit. Warranty does not transfer with a change of ownership or lessee.

Improper Usage

Fresh Manufacturing assumes no liability for parts or labor coverage for components failure or other damages resulting from improper usage or installation or failure to clean the condenser coil and/or maintain the product as set forth in the user/operation manual on the website.

Residential Applications

Fresh Manufacturing assumes no liability for parts or labor coverage for components failure or other damages resulting from installation in non-commercial or residential applications.

Alteration, neglect, abuse, misuse, accident, damage during transit or installation, fire, flood, and acts of God

Fresh Manufacturing is not responsible for the repair or replacement of any parts that Fresh Manufacturing determines have been subjected after the date of manufacture to alteration, neglect, abuse, misuse, accident, damage during transit or installation, fire, flood, or acts of God.

Improper Electrical Connections

Fresh Manufacturing is not responsible for the repair or replacement of failed or damaged components resulting from the incorrect supply voltage, use of extension cords, low voltage, or unstable supply voltage.

Outside of the United States

This warranty does not apply to, and Fresh Manufacturing is not responsible for, any warranty claims made of products sold or used outside of the United States.
